Business Terms: Prices quoted in this catalog are net, 30 days. All goods are offered, subject to being unsold on receipt of order, and **we reserve the right to change prices, if current conditions require it.**

We deliver free by Parcel Post or Express all orders for Vegetable and Flower Seeds when cash accompanies the order.

All goods travel at purchaser's risk after they are in the hands of any common carrier.

Orders from unknown parties must be accompanied by cash or satisfactory references.

Claims must be made on receipt of goods, otherwise they will not be considered.

Packing charges will be made on all plant shipments and on other shipments requiring special attention.

NON-WARRANTY

While we take all possible care to send out only such goods that under proper conditions produce satisfactory results, we still give no warranty as to description, quality or productiveness of any seeds, bulbs or plants we send out and will not be in any way responsible for the crop. All orders for articles named in this catalog will be executed on these conditions only.

For years it has been our privilege to supply many of the leading estates with their plant requirements and we ask your consideration when in the market for plants, either for greenhouse or outdoor use.

We have *Practical Plantsman* in our organization, and it will always be considered a privilege to quote on your needs. Rare and unusual subjects are a specialty with us.

Your inquiries are respectfully solicited.

January 1, 1935.

BETTER times, more leisure for profitable recreation, and increased interest and activity in plant growing and gardening—those, we believe, are going to be outstanding features of the coming year in its continued progress toward real recovery.

As our contribution to their realization, we offer through this, our seventeenth annual catalog of flower and vegetable seeds, bulbs, plants, and gardening requisites, a renewal of our pledge to maintain the same standards of quality merchandise and service that have, for nearly twenty years, made the name Muller-Sealey stand for **MAXIMUM SATISFACTION**.

We shall appreciate the privilege of supplying and assisting both our friends of past seasons and new ones. We will especially welcome the opportunity of showing those who have not heretofore dealt with us what we can do for them—both in filling their plant requirements and in helping them find the easiest, most direct, most enjoyable way to the garden effects and rewards they seek.

Whether you depend on the standard, ever-reliable sorts, or are interested in novelties of proven worth, or desire to experiment with the rarest and most unusual of garden materials, we are prepared and equipped to fill your requirements with the very best obtainable. And whether an order be large or small, costly or inexpensive, easy to fill or difficult, you can count upon the same scrupulous attention to every detail, and the same unremitting care that has consistently been the boast and pride of this firm.

We continue our practice of presenting our message and offering our wares and facilities in plain, unadorned form, preferring to give the extra measure of quality and satisfaction assurance in the actual goods you receive. To those who prefer and are able to deal with us in person, we extend a cordial invitation to call at our offices, conveniently located in the heart of New York City; or to visit our spacious warehouse in Jersey City, N. J. Yet distance and correspondence present no difficulties and in no way lessen the interest and personal attention given the prompt filling of every order.

Looking forward to the pleasure of serving you we wish you a garden year of unprecedented success and unqualified enjoyment.

FLOWER SEEDS

Novelties for 1935

CALENDULA "Orange Shaggy"

A very distinct break in Calendulas. The closely set petals are long and deeply fringed or lacinated, giving to the flower the shaggy appearance of Chrysanthemums. The color is a rich orange and the flowers are freely borne on long stems. **Pkt. 35c., $\frac{1}{4}$ oz. \$2.50.**

COSMOS EARLY KLONDYKE Orange Flare

An early flowering strain, blooming in four months from seed. The color is the same vivid orange of the ordinary "Klondyke," but the attractive, light green foliage is much less abundant. The stems are long and wiry. Well adapted for cutting. **Pkt. 25c., $\frac{1}{4}$ oz. \$1.50.**

DIANTHUS PLUMARIUS Little Jock Hybrids

We feel sure that these new hybrids will become popular for the decoration of rockeries. The compact plants which grow 6 to 8 inches high produce a multitude of prettily fringed flowers about an inch across in varied tints of pink, rose, and white shades which are 50 per cent double. **Pkt. 50c.**

DIANTHUS Double Sweet Wivelsfield

A remarkable successor to the original "Sweet Wivelsfield." It has a larger and fuller individual flower which lasts a good deal longer in the beds.

The colors range from velvety crimson to white, and salmon pink, and the habit of the plant 15 inches high is extremely vigorous. **Pkt. 50c.**

SALVIA SPLENDENS "Coral"

The long flower spikes appear a vivid coral pink which is set off by a fine brick red tone on a long corolla. This extraordinary pastel shade appears to the best advantage in late Summer and Autumn. **Pkt. 50c.**

VENIDIUM FASTUOSUM HYBRIDS

It is certain that these new hybrids will be cordially welcomed. The plants grow 2-3 feet tall and produce numerous stems, each bearing a large flower 4-5 inches across. The colors include buff, lemon, cream, light orange, white, canary yellow, rose, cerise, and salmon.

Choice Mixed. Pkt. 75c.

ZINNIA "Fantasy"

The informal, shaggy appearing flowers are graceful and interesting, and quite distinct from the formal Zinnias to which we are accustomed.

The medium sized flowers are composed of a mass of shaggy, raylike petals which give a delicate and refined appearance.

Choice Mixed. Pkt. 25c., $\frac{1}{4}$ oz. \$2.50.

Recent Novelties and Specialties

ANCHUSA ITALICA "Feltham Pride"

The Anchusa has the disadvantage of a rather straggling habit of growth, but "Feltham Pride" is of a much less spreading habit than the "Dropmore" variety, and moreover bears larger flowers and of a brighter blue. **Pkt. 35c.**

ASTER SUBCAERULEUS "Wartburg Star"

A new giant flowering race of these popular Spring Asters. The bright lavender blue flowers with yellow centers measuring more than 4 inches across are borne on stalks 28 inches long. **Pkt. 25c.**

CALENDULA "Apricot Queen"

A flat petaled variety of a bright apricot shade deepening slightly towards the center. $\frac{1}{4}$ oz. **\$1.25., Pkt. 25c.**

CANTERBURY-BELLS "New Dwarf Bedding"

This new type grows about 20 inches in height, forming bushes over 3 feet in circumference. It is very floriferous, the plants often bearing 100 to 150 flowers. The colors that have so far appeared are various shades of blue, mauve, and white. **Choice Mixed. Pkt. 35c.**

ANNUAL CANTERBURY-BELLS

After many years of selection, we are able to offer a strain which will bloom within 6 months from time of sowing. This strain is obtainable in mixture only, but contains all the colors of this popular flower. **Pkt. 25c.**

CINERARIA MULTIFLORA GRANDIFLORA MAXIMA

A hybrid between "Multiflora Nana" and "Grandiflora Maxima." It has inherited the multiflorous blooms of the "Multiflora Nana" and the height of the "Grandiflora Maxima." The single blooms measure 2-3 inches in diameter and the plant grows 12-16 inches high above the pot. We offer it in the following colors: **White, Salmon Rose, Fiery Crimson, Cornflower Blue, Light Rose, Choice Mixed.**

Any of the above colors, pkt. \$1.00

HEWITT'S SUPER DELPHINIUMS

Hewitt's Delphinium Seed is the finest obtainable, selected from the best types, carefully ripened and reselected before being sent out. The varieties we offer are the cream of modern Delphiniums.

Advancement. Pale blue guard petals with inner petals glistening pink. **Pkt. \$3.00.**

Anne Hathaway. Rich blue with white eye. **Pkt. \$2.00.**

Arden. Guard petals sky blue, inner petals rosy mauve. **Pkt. \$2.00.**

Duchess of York. Blue, suffused violet, semi-double, with black eye. **Pkt. \$2.00.**

Monarch of Wales. Deep blue and mauve. **Pkt. \$2.00.**

Pompadour. Brilliant blue, perfectly formed semi-double flowers; a grand variety. **Pkt. \$3.00.**

Tom Hewitt. Glorious rich blue with black eye. **Pkt. \$2.00.**

Warwick. Deep purplish blue, semi-double waved flowers. **Pkt. \$2.00.**

Will Shakespeare. Semi-double flowers of medium blue, shaded rosy mauve. **Pkt. \$2.00.**

For other varieties, see page 35.

NEW HYBRID DIANTHUS "Loveliness"

Loveliness is a gorgeous flower of an exquisite mauve tint, having large, lacerated petals some 2 inches in diameter. It has the most gorgeous bouquet and is the most alluring perfumed flower we know. Millions will grow it for scent alone. It is a hybrid from Dianthus wimmeri, but much freer flowering, with a more erect stem. Sow seed at any season—Winter with heat, Spring and Summer out-of-doors. Blooms about seven months from date of sowing. **Pkt. (20 seeds) \$1.00.**

DIANTHUS ROCK ALPINUS

After many years of patient work crossing selected types of "Allwoodi" on to various types of Rock Alpinus, we have been rewarded by a number of ultra beautiful seedlings. The large majority of seedlings will be of very dwarf habit from 3 to 6 inches. Plants are perpetually flowering from early Summer until frost, retaining their beautiful glaucous foliage throughout the year. **Pkt. 50c.**

GAZANIA SPLENDENS HYBRIDA

A showy, half hardy perennial which flowers the first year from an early sowing. The plants are low growing with a good quantity of long-stemmed, Daisylike flowers in brilliant shades of orange and yellow, as well as cream and white. Fine for Summer bedding. **Pkt. 25c., 1/8 oz. \$1.00.**

"GLORY OF THE SUN" Leucocoryne Ixioides Odorata

First introduced from Chili in 1927, it has proven to be one of the finest cut flowers for the cool greenhouse. It has heads of large, fragrant flowers, blue with white center, carried gracefully on wiry 18 inch stems. The culture is the same as for Friesias but as the bulbs show little tendency to throw off sets, *seed which germinates freely is the best means of propagation.* **Pkt. 75c.**

KALANCHOE GLOBULIFERA COCCINEA

This succulent pot plant is easy to grow and propagate. In shape the flower resembles a Bouvardia, while the color is a brilliant scarlet. **Pkt. 50c.**

LARKSPUR, Upright or Delphinium Type

Blue Bell. A fine, medium blue Larkspur, deeper than sky blue, yet much lighter than lilac. It is decidedly upright with long, basal branched flowering spikes.

Carmine King. Deep carmine rose.

Miss California. Rich deep pink on a salmon ground.

Blue Spire. Intense deep blue.

White Spire. Dazzling pure white.

Each of the above, pkt. 25c., 1/4 oz. \$1.00

LINARIA MAROCCANA GRANDIFLORA "Diadem"

This novelty with its flowers of bright violet with pure white eye has much larger blooms than the other Linarias, and it lasts in bloom much longer. It grows about 10 inches high and forms a perfect bush with many spikes of flowers to each plant. **Pkt. 35c.**

NEW DWARF LINARIA "Fairy Bouquet"

The plants are not more than 8 inches high, are very compact in habit, and bear large flowers in many colors, such as rose, yellow, pink, lavender, carmine, red, violet, white and salmon. Excellent either for bedding or for pots.

Choice Mixed Colors. Pkt. 35c.

GOLD MEDAL "REGAL" LUPINES

The finest strain of Perennial Lupines in existence.

Award of Merit, Royal Horticultural Society

Cleopatra. Apricot flame.

Buttercup. Buttercup yellow.

Delight. Massive crimson lake.

Golden Thoughts. Rosy fawn.

Joy. Pink and yellow, dwarf.

Joyce Blackburn. Yellow, tinted bronze.

Marjorie. Beautiful shade of bronze.

May Robinson. Apricot fawn.

Mrs. Metcalfe. Orange scarlet, a glorious variety.

Pink Pearl. A distinct lovely pink.

Queen of Hearts. Pink and white bicolor.

Winnie Walker. Yellow, shaded bronze.

Any of the above 12 varieties, pkt. 25c., $\frac{1}{4}$ oz. \$2.00
For other varieties, see page 38.

TALL DOUBLE FRENCH MARIGOLD

Royal Scot

The large, well-formed flowers are produced in abundance on plants from 24 to 30 inches in height. The color is a charming combination of mahogany and gold in symmetrical stripes which radiate from the center of the flowers. **Pkt. 25c., $\frac{1}{8}$ oz. \$1.00.**

MYOSOTIS ALPESTRIS "Blue Ball"

This new Forget-me-not is remarkably compact in habit, of almost globular shape and of more regular growth than any other variety hitherto introduced. The flowers are of a deeper tint than the ordinary indigo blue. **Pkt. 35c.**

MYOSOTIS ALPESTRIS COMPACTA

"Blue Bouquet"

This massive blooming Forget-me-not is of wonderfully compact habit, with unusually large flowers of a rich deep blue. The most effective Spring bedding variety yet introduced. Highly recommended for rock gardens. **Pkt. 35c.**

NEW DOUBLE SWEET-SCENTED NASTURTIUMS

The flowers are uniformly double, large, well formed, and delightfully sweet-scented. The stems are long and wiry, bearing numerous flowers well above the foliage.

	Pkt.	$\frac{1}{2}$ oz.	Oz.
Golden Gleam. Golden yellow	\$0.15	\$0.60	\$1.00
Scarlet Gleam. Orange scarlet35	2.50
Gleam Hybrids. A wonderful mixture of new colors, including scarlet, orange- scarlet, salmon, salmon-pink, cerise, cherry rose, pearly lemon, and maroon.25	2.00

PAPAVER NUDICAULE "Gartref" ICELAND POPPIES

The "Gartref" strain of Iceland Poppies has been reslected from the range of art shades, and, as a distinctive feature, most of the blooms have dark edges to the petals, both in dainty tonings and in sharp contrast to the base colorings. The large blooms measure $4\frac{1}{2}$ inches across, and some even as much as $5\frac{1}{2}$ inches. The range is extensive, for, besides the number of base colorings, the combination of edgings and centers adds to the variety. The pink tones are mainly in the shell pink to carmine range, the yellows in the cream to gold tonings, and the amber to apricot colorings are free from brown shades. **Pkt. 35c.**

POLYANTHUS PRIMROSE "Spetchley Strain"

A lovely new strain of Giant-flowered Polyanthus Primroses. The plants are of strong, robust, dwarf growth and the flowers of immense size, ranging through a great variety of beautiful colors and art shades. Award of Merit, R. H. S. **Pkt. 75c.**

POPPY "Fairy"

This beautiful new Poppy may be described as a giant "Shirley" growing in bush form. The flowers measure 6 inches across, each having a Maltese cross of varying tint in the center and appear in all art shades of pink, rose, salmon, and scarlet. **Pkt. 50c.**

GIANT-FLOWERED FLORENTINE RANUNCULUS

We strongly recommend this wonderful type. It is very strong and vigorous in habit, with tall stems of bloom 18 inches to 2 feet in height, each individual flower measuring 4 to 5 inches in diameter. **Choice Mixed. Pkt. 25c.**

STATICE SINUATA Kampf's Tall Improved

It produces brilliant deep blue blooms on stalks 3 feet long. This new variety is unsurpassed for cutting and indoor Winter decorations. **Pkt. 25c.**

TROLLIUS LEDEBOURI "Golden Queen"

This is one of the finest hardy perennial plants introduced for a number of years. The plant is very vigorous, grows from 3 to 4 feet in height, but its chief value lies in the size of the flowers and the intense orange color. **Pkt. 50c.**

URSINIA ANETHOIDES

The plants form large tufts of leaves from which spring up long, wiry stems, bearing Daisylike flowers of rich orange yellow, adorned by a beautiful ring of deep purple. Half-hardy annual. Height 1 foot. **Pkt. 25c.**

VENIDIUM FASTUOSUM

A magnificent half-hardy annual. The plants attain a height of 2 to 3 feet, and above the grayish silky foliage rise numerous rich orange-colored, Daisylike flowers which are marked with a purple-black zone at the base of the petals. **Pkt. 50c.**

VERBENA HYBRIDA COMPACTA "Royal Bouquet"

This variety marks a new era in the development of the upright growing Verbena. It forms a plant 15 to 18 inches high and not more than 10 inches across, no lateral branches being thrown out.

Choice Mixed. Pkt. 25c.

VERBENA VENOSA "Lilacina"

This new variety with delicate lavender blue flowers has now been added to the well known purple variety. Height 1 foot. **Pkt. 25c.**

DOUBLE ANNUAL WALLFLOWER "Early Wonder Violet"

The long, strong central spike of this new variety is thickly covered with large, double violet blooms and if sown in March will flower from August until frost comes. **Pkt. 50c.**

SCABIOUS FLOWERED ZINNIA

The flowers are of medium size and each bears a collar of petals surmounted by a full, double crest of the same tone of color. The colors range from pale rose to crimson and scarlet with orange, golden and purple shades. Height 2½ feet. **Pkt. 25c.**

ANNUALS

These play a big part in the great color schemes of brilliant beds and borders in our Summer gardens. Both for garden effect and for cutting their beauty and usefulness is equally valuable, and by careful choice as to height, color and time of blooming, effective arrangements can be made for a continuous display away into the Fall.

HARDY ANNUALS. Sow in the open ground where they are intended to bloom. The seeds should be sown thinly and covered with fine soil to a greater or less depth, according to the size of the seed.

HALF-HARDY ANNUALS. The seeds should be sown in pans or frames in the early Spring, and transplanted outdoors in April or May, but previous to removal they should be hardened off by gradually exposing to the open air.

SURPRISE ASTER "Salmongold"

Shades of salmon have hitherto not yet been found among Asters, therefore "Salmongold" is the first in this color on the market. When starting to flower it is pure salmon yellow, the fully developed blooms show a radiating salmon pink shade. The flowers measure from $2\frac{3}{4}$ to $3\frac{1}{2}$ inches in diameter and are carried on long stems. This new variety blooms continuously from July up to late in the Autumn. **Pkt. 50c.**

ASTER SUPER GIANT, "Los Angeles"

The color of this new Giant Aster is a pure shell pink. The long-stemmed flowers are full petaled, deep, and unusually large, and are artistically graceful in the feathery effect of the interlacing petals. $\frac{1}{8}$ oz. \$1.25, pkt. 25c.

ASTERMUM (Wilt-Resistant)

The flowers of this type closely resemble a Japanese Chrysanthemum.

PERENNIALS and BIENNIALS

ONE of the most interesting spots in any garden is the border devoted to hardy perennials, usually called "the old-fashioned" or "grandmother's garden." Their permanent nature and delightful forms and color, their wealth of blooms and continuous display throughout the year are good reasons why perennials are general favorites with everybody.

Some professional gardeners and many amateurs prefer to raise their own hardy flowers from seed, and we think, much of the real excitement and joy in gardening is afforded in tending and nursing the little mites from babyhood. The following list is fairly representative of the choicest and rarest as well as the best old-fashioned flowers available today. Complete catalog of Perennial Plants mailed free on request.

Varieties marked with a (*) are particularly adapted for Rock Gardens

Lawn Seed Mixtures

M.-S. Co.'s Special Lawn Grass Mixture

Weight per measured bushel, 28 to 30 lbs.

Our Special Lawn Grass Mixture is composed solely of the finest and heaviest seeds in the following varieties, carefully blended: **Chewings Fescue, Kentucky Blue Grass, Fancy Red Top, Rough Stalked Meadow Grass, Pacey's English Rye Grass.**

Lawn Grass Mixtures at a much lower price are very often sold, but the use of these can only lead to disappointment, if a really fine lawn is desired. This mixture is the very best that can be procured.

For new lawns we recommend sowing 100 lbs. to the acre. For renovating lawns use half of this quantity. 25 lbs. \$15.25. 100 lbs. \$60.00.

The above mixture with **GERMAN BENT**, 25 lbs. \$16.50, 100 lbs. \$65.00

Orchid-Flowering Dahlias

This fine race is certainly due great popularity for landscape effect, gardens, table arrangements, and dainty decorations. The bushes are compact, free branching, and exceedingly prolific bloomers. Most of them are 4 to 5 inches in diameter and 2 to 3 feet in height. They do wonderfully well when pinched or cut back for landscape effect, but should not be thinned out or disbudded. If Orchid-flowering or Single Dahlias are cut before the pollen shows, they will hold their petals and keep for days.
